RE: draft summary DOGGR injection well inventory for 2012: open injection wells	01/08/2013 02:36 PM

### Item Body

Hi Liz,

Thank you for sending me this data. I'm having somebody from our database unit to run the numbers and hopefully they'll come out the same with yours. I'll be in touch before the 15<sup>th</sup>.

Best regards,

Jerry

5C4	5G	313							12	188	113
		48565	Open Class II wells								
		313	Open Class V Geothermal Wells								

Hello - thank you for sending/posting your end of year data. Above is the compiled results of the data you have shared, restructured to conform to the national UIC database requirements and summarized.

If you see anything that looks amiss, let me know. I did find 70 duplicates in the data that I summarized for Jerry a few days ago, where individual API numbers were linked to more than one well field. I edited those out so the net increase in Class II wells is much smaller. Most of the duplicates were in LA County where they were listed under both Wilshire and Old Wilshire.

rsvp.
